MARKETING PLATFORM

- Central documentation
- Examples
- On site test run lab-environment

CROSS CUTTING SERVICES

Central services, for standardization of components. That needs to communicate with all api's.

ACCESS CONTROL

- Central management of access control
- Load balancing
- Rate limitation

APPLICATION API (AGGREGATE & ROUTING)

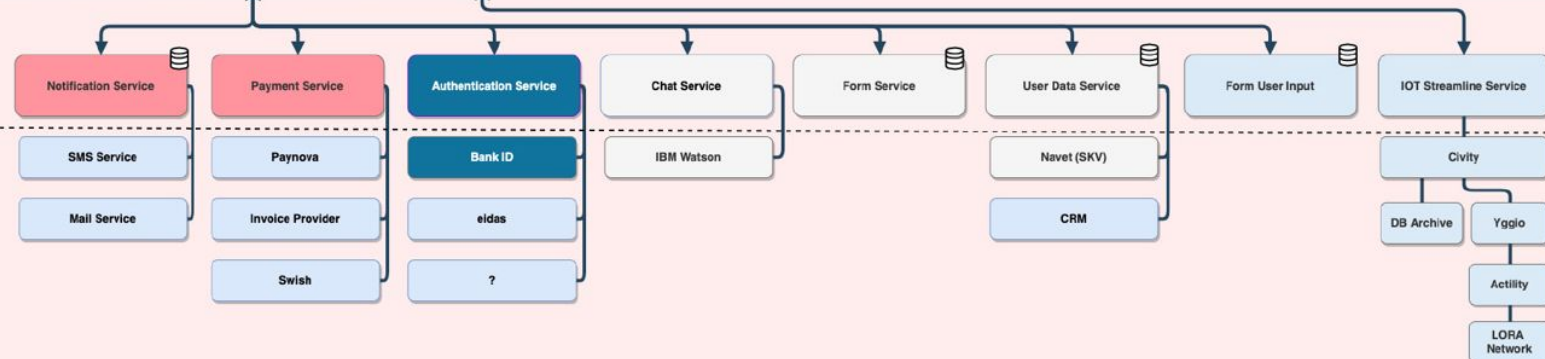

Public API's that has a goal to provide all necessary information for a single application.

SERVICE API

Api's that aggregate vendor api layer.

- Returns a managed data model to the inquirer (streamlining data)
- Aggregate native api's
- Single responsibility for each api
