

JOBTECHDEV - OPENING UP THE LABOUR MARKET THROUGH COLLABORATION

Jonas Södergren
Swedish Public Employment Service

About Jonas

Product Manager and Initiator @ Jobtech Development | Swedish
Public Employment Service

JobTech Development is a unit at the Swedish Public Employment Service.

We offer open APIs and open source technology for those who, together with us, want to contribute to a well-functioning labor market.

Government-as-a-Platform

"The whole point of Government-as-a-Platform is to encourage the private sector to build applications that government didn't consider or doesn't have the resources to create."

--- O'Reilly, 2011 ---

The Objectives

Share

- code and data
- from
- the core business
- for
- further contribution

solution

- Arbetsförmedlingen has a brand Jobtechdev
- Budget 5 million Euro
- API /Services 10 (Dataset around 50)
- GitHub repos 50
- Community Slack 5.000 messages
- Open data 1 million job ads, 50.000 occupations
- Users Serving 1.6 million requests per day to 400 users ■

Vad delar vi med nätverket idag

.. .

Fokus på att dela källkod är viktig när det krävs mycket kunskap och mjukvara för att jobba med den öppna datan.

.. .

Exempelvis att bygga en Platsbank är komplikt, varför inte återanvända det som är gjort.
